# Machine Learning: Introduction

Zhang Hongxin

zhx@cad.zju.edu.cn

State Key Lab of CAD&CG, ZJU

2006-03-23

Syllabus

- Covers a set of Machine learning techniques –from basic and state-of-the-art.

- You will learn:
  - PCA, MDS,K-mean, spectrum based clustering, Naïve-Bayes classification, boosting, logistic regression, decision tree, EM, HMM, Kalman filtering…

- Tell the stories behind the algorithms, theory and applications.

- It is going to be fun and hard work.

Rough schedule

- 03.23: Introduction
- 03.30: Classification
- 04.06: Clustering
- 04.13: HMM

Principle

- Simple is beauty!

- Make a balance between theories and real applications

Final report

- Paper reading report.
  - Reading a typical learning paper. Report the main idea and your own opinions.
    - Paper source:
      - SIGGRAPH,
      - ICCV/ECCV/ACCV, CVPR,
      - NIPS/ICML/IJCAI/UAI
      - …
    - Report can be in English or Chinese. And please hand out in PDF format.

    - zhx@cad.zju.edu.cn
    - chenwei@cad.zju.edu.cn

Prerequisites

- Probabilities
  - Distributions, densities, marginalization…
- Basic statistics
  - Moments, typical distributions, regression…
- Algorithms
  - Dynamic programming, basic data structures, complexity…
- Programming
  - Mostly your choice of language: C/C++, MATLAB, JAVA
- We provide some background, but the class will be fast paced

- Ability to deal with "abstract mathematical concepts"

Text books

- <u>Machine Learning</u>
  - by Tom Mitchell
- <u>Pattern Classification (2nd Edition)</u>
  - by Duda, Hart and Stork
- <u>Information Theory, Inference, and Learning Algorithms</u>
  - by David MacKay
- Statistical Inference,
  - by George Casella and Roger L. Berger.
- And more …

- **All above books are optional. Everyone have their own learning algorithms, ☺**

Internet resources

- http://www.cad.zju.edu.cn/home/zhx/ML/
Enjoy!

- Machine Learning is becoming ubiquitous in science, engineering and beyond.

- This class should give you the basic foundation for applying ML and developing new methods.

- The fun begins…
